# SEGIBIZ CO., LTD

ELECTRIC TECHNOLOGY

## Since 1991

Honest & Trustworthy

Sincere Partner

Growing Company

ISO 9001 Quality Management System

Establishment of Research Center

## Certification Status

Acquired ISO 9001 (Quality Management System Certificate)

Certified for mark use by TUV SUD, Germany

Acquired NRTL certification by TUV SUD, Germany

Acquired UL Certificate from UL (Testing Laboratory of American Insurance Association)

Acquired ATEX (explosion-proof) Certificate

Passed the EN (European Standards)

## RoHS

This approval confirms that no electronic products exported by the company to Europe from July 1, 2006 contain any of the following 10 harmful substances: Pb, Cd, VI, PBBs, PBDEs, DEHP, BBP, DBP, and DIBP.

A portmanteau of the words 'innovation' and 'business' used to refer to technically innovative small & medium sized companies that secure their competitiveness through their technical dominance.

# History

## 2022

- 12. Developed Power Distribution 2L06, 3L06-50A  
Conclusion of the new agency contract with Dongwon Industrial Systems
- 08. Developed Ø40 Signal Tower
- 06. Developed MC-N-02
- 04. 5 Color Signal Tower Redevelopment, ILOOKS shop renewal open
- 03. Conclusion of the new agency contract with HM plus

## 2021

- 04. TB30PT development

## 2020

- 07. New product development : AL-50P-S / Short bar 2p
- 04. Developed MP, MPL(W)
- 03. Released AURORA Tower Light and Warning Light
- 01. Developed Power Distribution Terminal Block 400A  
Developed NFB Power Distribution Terminal Block 400A

## 2019

- 08. Developed Industrial Socket Box
- 07. Developed Wire Connector
- 06. Developed NFB Power Distribution Terminal Block

## 2018

- 09. Developed HC Terminal Block / Heat-resisting Al Box  
Acquired ROHS Certificate
- 03. Acquired UL for Power Distribution

## 2017

- 09. Acquired UL for CB / PB / AL Series Block(none)
- 04. Developed Power Distribution Terminal Block  
Hanoi, Vietnam SAMSUNG SDI Vander registered
- 03. Developed Aluminum Profile Box Sloped Type

## 2016

- 06. Acquired LED Machine Light CE, IP65

## 2015

- 12. Acquired AL Series Block(none) TUV  
Developed Canada & USA LED Machine Light
- 06. Developed Power Distribution and Signal Tower

## 2014

- 10. Developed Working Light
- 04. Concluded exclusive contract with METE ENERJI (Turkey)

## 2013

- 11. Acquired TUV NRTL for CB / PB Series
- 04. Signed exclusive contract with WEICON (Germany)
- 03. Registered as a supplier of Hyundai Motors, Chennai, India

## 2012

- 12. Acquired ATEX Explosion proof for AL without Terminal Series  
Acquired TUV NRTL for TB Series

## 2011

- 03. Developed LED Light

## 2010

- 12. Selected as an excellent example of management consulting for small & medium companies
- 08. Moved to new extended building
- 01. Established the Shopping mall Brand 'BIZ Market',  
Obtained INNO- BIZ Certificate  
Established company-affiliated R&D center

## 2009

- 12. Obtained Venture Enterprise Certification
- 11. Acquired TUV Mark
- 06. Renamed SEGIBIZ CO., LTD.

## 2006

- 06. Founded SEGI-BIZ CO., LTD.
- 04. First export of 'SG-CB-2201' to Toyota Motors  
Developed SG-AL-30P

## 2005

- 10. Received citation from the Director of Small & Medium Business Administration
- 01. Obtained ISO 9001 Certification of International Quality Management System

## 2003

- 05. Developed PIN BOX TB-15P / TB-20P

## 2002

- 11. Moved to 128-67, Gamjeon 1(il)-dong, Busan

## 1999

- 05. Developed PIN BOX 6PT / 10P

## 1998

- 11. Developed PIN BOX 4P / 6P
- 04. Registered design patent and utility model

## 1993

- 03. Moved to #7-133, Busan Industrial Distribution Arcade,  
Gamjeon-dong, Sasang-gu, Busan

## 1991

- 12. Founded Segi Electronic F.A. in Yeonji-dong, jingu, Busan

## Nomenclature

SG - **AL** - **6171** - **48**

①      ②      ③

① Product name  
Aluminum Box

② Product size (mm)  
Width x length

③ Product height  
Height

## Feature

UL approved product  
Packaging in polyurethane materials using a Forming Machine provides waterproofing and dustproofing effects.

Volts- Covers-Polyurethane packaging- consists of a base  
Mounting plates are available separately.  
(No mounting plate for SG-AL-6171-48 /7093-52 models)

## Description

Aluminum boxes are basic junction boxes made from aluminum casting, and are mainly used in industrial machinery, robotics, welding machines or automobiles, petrochemical plant facilities, oil supplies and gas supply facilities. Aluminum boxes are easy to install and come in a variety of sizes tailored to the customer's needs, so they can be used in practical ways that serve the user's convenience, and have obtained ROHS certification and UL certification, confirming the safe use of the product.

## Product Specifications

Color: Gray  
Tolerance:  $\pm 1$ mm  
Thickness: 3.5T ~ 4T  
Operating temperature: -20°C ~ +180°C  
Protection rating: IP67  
Material: Aluminum (AL 12 types)

## Safety Specifications

## Description

The ATEX aluminum explosion proof box is a product that has obtained ATEX explosion proof certification and is used for a range of purposes in various industries, including factory warehouses. It is additionally coated after polarization for protection. The ATEX aluminum explosion box is rated IP67 for protection against dust, and is waterproof for 30 minutes to a depth of 1 meter. The ATEX aluminum explosion proof box is available in 12 different sizes for a variety of applications where explosion proofing is required.

# Aluminum Terminal Box

## Nomenclature

SG - **AL** - **4P**  
 ①            ②

① **Product name**  
 Aluminum Terminal Box

② **Number of pins**  
 4 - 50 Pin

## Feature

This is all-in-one type terminal with various sizes and terminal types, and its polyurethane foaming is effective for waterproofing and dust proofing, and is highly productive and efficient.

## Electrical Specifications

- Allowable current: 10A
- Rated frequency: 50Hz
- Rated input voltage: AC250 Volts
- Withstand voltage: 1880V / 1 minute

## Safety Specifications

## Product Specifications

- Color: Gray
- Tolerance: ± 1mm
- Thickness: 3.5T ~ 4T
- Operating temperature: -20°C ~ +70°C
- Protection rating: IP67
- Material: Aluminum (AL 12 types),  
 ABS incombustible (Terminal Block)

## Description

The aluminum terminal box is an integrated junction box with terminals located inside the box. Our aluminum terminals are manufactured from aluminum (AL 12 type) with a standard rating of 10 Amp to 250 V, and the exterior is painted in gray. Just like our aluminum boxes, the aluminum terminal boxes are packed with polyurethane gasket foaming, providing excellent waterproofing and dust proofing, and are used in a wide range of industrial machinery, robotics, commercial wiring and low voltage control systems.

# Heat-resisting Aluminum Terminal Box

## Nomenclature

SG - **HL** - **4P**  
 ①            ②

- ① **Product name**  
Heat-resisting Aluminum Terminal Box
- ② **Number of pins**  
4 - 50 Pin

## Feature

Use of heat-resistant terminals that can be used in temperatures up to 400°C.  
 Able to work in hotter environments than the AL aluminum series.

## Electrical Specifications

Allowable current: 10 A  
 Rated frequency: 50Hz  
 Rated input voltage: AC 250 Volts  
 Withstand voltage: 1880V / 1 minute

## Description

The heat-resistant aluminum terminal box uses a heat-resistant terminal stand in a box made of aluminum castings, making it more heat-resistant than other terminal boxes, which allows it to be used in environments with higher ambient temperatures. Like the aluminum terminal box of SEGIBIZ it is made to the same standard rating, has excellent waterproof and dust proof effects, and is the same size, so it can be used in various industrial facilities that require heat-resistance.

## Product Specifications

Color: Box - Gray / Terminal Block - Ivory  
 Tolerance: ± 1mm  
 Thickness: 3.5T ~ 4T  
 Operating temperature: -20°C ~ +180°C  
 Protection rating: IP67 / NEMA 12X  
 Material: Aluminum (AL 12 types),  
 heat-resistant material (Terminal Block)

# Plastic Terminal Box

## Nomenclature

SG - **TB** - **4** **P** **G**

①      ②      ③      ④

- ① **Product name**  
Plastic Terminal Box
- ② **Number of pins**  
4 - 50 Pin
- ③ **Allowable current**  
P, PT : 10A / P15 : 15A
- ④ **Color**  
G : Gray / I : Ivory  
GC : Gray with transparent cover  
IC : Ivory with transparent cover

## Feature

The boxes come in two colors – gray and ivory – with three types of covers : gray, ivory and transparent. Excellent waterproofing and dustproofing thanks to the polyurethane packing. Terminal integrated box using incombustible ABS, with various customized sizes available for user convenience.

## Electrical Specifications

Allowable current: 10 A / 15 A  
 Rated frequency: 50Hz  
 Rated input voltage: AC 250 Volts  
 Withstand voltage: 1880V / 1 minute

## Description

Plastic terminal boxes use incombustible ABS and are suitable for sensors, limits S/W, V/V BOX and various kinds of intermediate terminal boxes. Assembling existing prefabricated terminals and boxes is not difficult; productivity is maximized with all-in-one production, which saves resources so that they can be used more practically and safely. It is used in a range of fields, including industrial machinery, robots, commercial wiring, and low voltage control systems.

## Product Specifications

Color: Gray, Ivory, Transparent cover  
 Tolerance: ± 1mm  
 Operating temperature: -20°C ~ +70°C  
 Protection rating: IP65 / NEMA 6X  
 Material: Incombustible ABS / Transparent cover Polycarbonate  
 Mounting hole size: 0.17 in

- ④ **Product height**  
55mm / 70mm
- ⑤ **Cover color**  
Red, Yellow, White

### Feature

UL approved product  
The plastic push button box has a hole ( $\varnothing 22 / \varnothing 25 / \varnothing 30$ ) in the cover so that the switch can be installed without a separate process.

### Description

The plastic pushbutton box is made in three colors: red, yellow, and white. Plastic push button boxes are used especially often in emergency stop switches, and are safer to use with bright, vivid colors when they are used as emergency switches. This product is designed to be durable and easy to install using PC materials.  
This plastic push button box is designed to be durable and easy to install using PC materials.

# Aluminum Profile Box

## Nomenclature

SG - MB - 100 A  
 ①      ②      ③

- ① Product name  
Multi Box
- ② Product length  
60 - 4000mm
- ③ Product type  
M / MA / A / B / C / D / E

## Feature

Made of aluminum profiles, it is light and durable. It comes in a total 7 different types, and can be customized based on customer needs.

## Product Specifications

Color: Main body - Silver / Side plate - Orange  
 Tolerance: ± 1mm  
 Operating temperature: -20°C ~ +70°C  
 Material: Aluminum profile (anodizing) /  
 ABS incombustible (side plate)

## Description

Our aluminum profile boxes are lightweight, rugged and customizable to up to 4M in length. They also allow special marking with round, square, and other special shape-tapping and laser marking as desired. This product is frequently used in various automation facilities and electronic machines, and is convenient to use, as it is specifically designed to be used as a push button box for mechanical equipment.

## Example of use

## Product Type

### M Type

- Size(mm) : 50(W) mm X 50(H) mm X Length
- Thickness : 1.2 T

### MA Type

- Size(mm) : 50(W) mm X 70(H) mm X Length
- Thickness : 1.2 T

A

**A Type**

- Size(mm) : 70(W) mm X 50(H) mm X Length
- Thickness : 1.2 T

B

**B Type**

- Size(mm) : 70(W) mm X 70(H) mm X Length
- Thickness : 1.4 T

C

**C Type**

- Size(mm) : 70(W) mm X 90(H) mm X Length
- Thickness : 1.6 T

D

**D Type**

- Size(mm) : 90(W) mm X 70(H) mm X Length
- Thickness : 1.4 T

E

**E Type**

- Size(mm) : 90(W) mm X 90(H) mm X Length
- Thickness : 1.6 T

Aluminum Profile Box		
	Size: 50 X 50 T: 1.2	Size: 50 X 70 T: 1.2
	Size: 70 X 50 T: 1.2	Size: 70 X 70 T: 1.4
	Size: 70 X 90 T: 1.6	Size: 90 X 70 T: 1.4

### Nomenclature

SG - **MP** - **100**

①      ②

- ① **Product name**  
Multi Pentagon Box
- ② **Product length**  
100 - 4000mm

### Product Specifications

Color: Main body - Silver /  
Side plate - Orange  
Tolerance: ± 1mm

Operating temperature: -20°C ~ +70°C  
Sloping angle: 22°  
Material: Aluminum profile (anodizing) /  
ABS incombustible (side plate)

### Description

Like a general profile box, this allows you to work on the name plate with the product length and special hole processing and laser marking. In particular, the profile sloped box, with its sloped top surface, is more convenient when used as a push button box, and is excellent in terms of exterior appearance.

50A / 100A / 200A

## Feature

UL approved product  
 There is a removable protective cover to protect against electric shock accidents.  
 Busbar direction (left, right) position can be changed.  
 35mm DIN rail mounting is possible.

## Electrical Specifications

Allowable current : 50A / 100A / 200A  
 Rated input voltage : 600V

## Safety Specifications

## Description

The power distribution is a device that distributes the secondary power supplied from the main power to the primary power of each phase. By improving on the existing complex distribution method, it increases the efficiency of installation work. The PC-made cover and heat-resistant material side plate are highly resistant to shock and heat, enabling you to use it safely.

## Product Specifications

# Power Distribution Terminal Block

## Nomenclature

- ① **Product name**  
Power Distribution Terminal Block
- ② **Rated current**  
100A / 200A / 400A
- ③ **Number of terminals**  
4P / 6P / 8P

## Feature

It can be used efficiently even in narrow spaces, with a more compact size than the conventional model. The hinged protective cover prevents accidents such as electric shocks.

As screw connection and channel mounting can be done on the main body, installation and maintenance are convenient.

## Electrical Specifications

Allowable current : 100A / 200A / 400A  
 Pitch : 20mm / 30mm / 40mm  
 Rated input voltage : 600V

## Description

The power distribution terminal block type is economical with its small size, and it can be used conveniently by improving work efficiency.

It can be mounted directly on the product body in a narrow space, or used by mounting on a standard 35mm DIN rail, and each consists of 1 input terminal and 4~8 output terminals. As it uses heat-resistant material, it is resistant to impact and heat, and the busbar is plated with tin with 99.9% copper, giving it a higher conductivity than brass. Can be used safely and conveniently for a wide range of applications.

## Product Specifications

Tolerance:  $\pm 1\text{mm}$   
 Operating temperature:  $-20^{\circ}\text{C} \sim +110^{\circ}\text{C}$   
 Material: Heat-resistant material / Polycarbonate (Cover)  
 99.9% CU + Tin plated busbar

# NFB Power Distribution Terminal Block

## Nomenclature

SG - **NPD** - **100** **4P**

①      ②      ③

- ① **Product name**  
NFB Power Distribution Terminal Block
- ② **Rated current**  
100A / 200A / 400A
- ③ **Number of terminals**  
4P / 6P / 8P

## Feature

It is easy to connect directly to the main breaker without the need for a separate terminal, and is a space saving product with the same width as the breaker frame.

## Product Specifications

Tolerance : ± 1mm  
 Operating temperature : -20°C ~ +110°C  
 Material : Heat-resistant material / Polycarbonate (Cover)  
 99.9% CU + Tin plated busbar

## Electrical Specifications

Allowable current : 100A (Available with 50A breaker)  
 200A / 400A  
 Pitch : 20mm / 30mm / 40mm  
 Rated input voltage : 600V

## Safety Specifications

**RoHS**

## Description

The NFB terminal block type power distributor is an upgraded terminal block type power distributor. As there is a link that can be directly connected to the main breaker, it can be connected without the need for a separate terminal. The width of the product is the same as that of the breaker frame, which helps to save space. The heat-resistant material side plate resists shock and heat, and the PC material protection cover prevents electric shock, enabling safe use. As the busbar is coated with 99.9% copper with tin, it has a higher conductivity than brass and can be used efficiently.

# Wire Connector

## Nomenclature

SG - WC - 01

①      ②

① Product name  
Wire Connector

② Number of pin  
1Pin

## Feature

Rail type connector product that is fixed to the channel and used. The main body is made of PC and the PUSH part is made of ABS, giving it excellent heat resistance and strong impact resistance. Side plate can be ordered separately.

## Product Specifications

Color: Ivory, Green (Push), Black (Main Body)

Operating temperature: -20°C ~ +70°C

Material: Polycarbonate (main body) / Incombustible ABS (PUSH)

## Electrical Specifications

Service wire size : 1.5mm<sup>2</sup> (20 ~ 16AWG)

Rated input voltage : 250Volts

## Description

Can be used after connecting by inserting stripped wire that meets the standard while pressing the push part. Used exclusively for DIN rail mounting, by inserting a name strip into the groove of the product push.

# Plastic Connector Box

## Nomenclature

SG - WC - 06

①      ②

① Product name  
Plastic Connector Box

② Number of connector  
6, 10, 15, 20

## Description

The plastic connector box can save time and cost by allowing you to use a wire connector instead of a terminal box.

# Grounding Bar | Earth Ground

## Nomenclature

- ① **Product name**  
Earth Grounding Bar
- ② **Type**  
-: Single file  
2: Double file bending type  
3: Double file straight type
- ③ **The number of terminals**  
3P ~ 30P

Plated

## Description

Grounding bars are non-plated products made of 99.9% copper, and can be divided into various types: single file, double file, 3P to 30P. They are manufactured to support the safe grounding of electric facilities.

## Product Specifications

Material : Copper 99.9%, Tin-plated  
Bolt size : M5 (Single-file) / M4, M5 (Double-file)

Product certification : **RoHS**

# TECHNICAL INFORMATION

## Light & Color

Light and colors are a part of electromagnetic waves, and are converted to physiological energy by the eyes to be perceived by the brain. Humans can only perceive a small range of about 380~760 [nm] electromagnetic waves as light, but express different sensitivities depending on the sense of light and the wavelength. That is, humans can keenly perceive color changes based on the difference in wavelength: red for long wavelength while blue for short wavelength. This color sense is a sensual change related to brightness, which is why yellow makes us feel bright while blue makes us feel dark. This brightness spectrum, even when it has uniform energy, makes our eyes feel a different sensitivity depending on the wave strength. That is, 555 [nm] of light makes us feel the brightest light, while a longer or shorter wavelength than this gradually reduces the sense of brightness.

Spectrum of electromagnetic radiation

## Term Definition

### Light velocity

Light velocity means light that is visible to the human eyes. Its wavelength is about 380~760nm, and its unit is ‘ lumen’ (lm), which represents the amount of light passed in unit time and is indicated with “F”.

### Luminosity

This refers to the amount of luminous flux per unit solid angle radiating from the light source. The unit of luminosity is Candela (cd), and the indication symbol is “I”.

### Illumination

This refers to the brightness of a surface illuminated by a light source. The unit is lux (lx) and the indication symbol is “E”.

### Luminance

This represents luminosity per unit area on the appearance of an object observed. The unit used to express it is stilb (sb) or nit (nt).

## Light Source Type

### Incandescent bulb

Incandescent bulbs are referred to simply as bulbs or incandescent lamps. An incandescent bulb changes electricity to thermal energy, and uses the light radiated from the thermal energy as lighting. Its basic operating principle is to send current to a luminous body called a filament, which is tungsten wire wound in dual coil shape with 3,400 degree of high contact point, and generate joule (J) heat. Incandescent bulbs are cheap, easy to handle, and enable immediate lighting without the need for special equipment. Also, its point light source is so small that any lighting tool can be combined and the color rendition is good. However, the lifespan is as short as 1,000~2,000 hours, and the efficiency is as bad, at 15~20m/W.

### LED

This stands for "Light Emitting Diode." It is a light emitting semiconductor where direct current (DC) is flowing. It is an element that changes electrical signals to light signals. LEDs emit different colors depending on the material of the semiconductor, and they are small compared to bulbs, fluorescent lights, and neon tubes. It uses low voltage (DC5V), has very low power consumption (25mW), low heat generation and a semi-permanent service life (longer then 50,000 hrs). In addition, various luminous colors are available (Red, Green, Yellow, White, Blue, etc.).

### Comparison graphs for lifespan, brightness, and economic feasibility by the types of light sources

Comparison diagram when the maximum properties (lifespan, brightness, and economic feasibility) of indicating lamps set as 1000, 500, and 700, respectively.

### Economic Feasibility

### Brightness

## Nature of Sound

### Sound wave

- Sound: Changes of air density or pressure – that is, the wave of condensation and rarefaction of air particles
- Sound pressure: Changes in sound pressure, and the unit is bar. Minimum sound pressure we can here is 0.0002  $\mu$ bar.
- Sound Pressure L (SPL)
- Sound Velocity

### 3 Elements of Sound

Sound Intensity: Sound volume related to loudness and sound pressure

Sound pitch: Tune, the rise and fall of sound related to sound frequency

Timbre: Related to wave pattern representing a sound

### Intensity of Sound

Sound intensity refers to the sensory quality of sound in our ears. The nature of human ears means that we perceive a different level of sound pressure if the frequency changes.

Listen to the sensory quality of a sound based on frequency  $f$ (Hz) by comparing to 1000Hz of pure sound as a reference sound, and increase the sound pressure of the reference sound until the sound intensities of two sounds are identical. At this time, the sensory quality of that 1000Hz sound is the loudness level of the sound, and the unit is expressed as phon (ph).

Frequencies near to 3Hz can be heard the most easily by human ears; sounds that are lower or higher than this frequency are harder to hear. Also, frequency properties of 100ph sound are relatively even.

### Reverberation

When we listen sounds from audio systems or music instruments, we are listening both to the source of the sound and to the indirect sounds reflected from the wall or ceiling. This means that even when sounds from the original source stop, the reduced indirect sounds still remain, because the indirect sounds arrive slightly later than the direct sounds. This phenomenon is called reverberation.

## Electronic Horn

### Output Sound Pressure Level & Sensitivity

Speaker sensitivity is a ratio indicating how much of the electrical input applied to a speaker is radiated in the form of acoustic energy. Usually, it is expressed as sound pressure or output sound pressure level created in a specific distance point located at the frontal axis of the speaker, when single input is applied to the speaker. Output sound pressure level of a speaker means the average of sound pressure level created 1m away from the frontal axis of the speaker by applying 1W of input voltage to the speaker within a defined frequency range.

### Sound pressure

Sound refers to the changes of air density or pressure – that is, the wave of condensation and rarefaction of air particles. Pressure becomes higher in places with high air density, while it becomes lower than even the air pressure in places of low density.

The human auditory sense receives impetus from subtle changes in the air pressure, and perceives a sound. A sound source is the origin of a sound; a pressure change in a sound source makes the sound smaller in reverse proportion to the distance. This small pressure change is called sound pressure, and is expressed using the same unit as air pressure (bar).

### Audible Range

Sound intensities and frequencies audible to human ears are limited. In general, the hearing frequency range audible to the human ear is around 20~20000Hz, which is called audio frequency. Sound can be heard within a range of 0~125dB. A sound needs to be within a steady range to be heard. The lowest sound pressure level audible to the human ear is called the minimum audible limit, while the highest is called the maximum audible limit.

# AUT - L / LF Series

## Ø58 LED Steady / Flashing Signal Tower Light

AUT- L / AUT- LF

External volume adjustment

- LED Steady / Flashing type Signal Tower Light
- Excellent radiant effect achieved using special vacuum metallizing reflector together with high luminance LED.
- Operators can change color of each layer
- Color combinations other than standard
- Easy to maintain with globe and integrated interior structure
- Apart from the standard buzzer, 8 different melodies can be installed.
- Volume can be adjusted from the outside (Maximum volume 85dB)
- Mounting pole (length, type) are selectable (default SH20)
- Magnet mounted type is available for horizontal pole (SH).
- Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- Operating Temperature : -25°C ~ +50°C (freezing free)

### AUT-L / LF

### Beep output

Warning sound	Number of sounds	CH	Timbre
AB buzzer	1 sound		Monotone
AM Melody	4 sounds	1	Fur Elise
		2	Home Sweet Home
		3	The Magic Flute
		4	Piano Sonatas
AA Alarm	4 sounds	1	Beep ~ beep ~ beep
		2	Ding Dong
		3	Beep-ee
		4	Beep beep beep beep

AUTN-L / AUTN-LF

Using PC Light Diffusion Lens

### Product Features

- Using PC light diffusion lenses, light is subtle and luxurious.
- Available in AC and DC types.
- User Order Specifications Same as AUT-L / LF Series.

- LED Steady / Flashing type Signal Tower Light
- Excellent radiant effect achieved using special vacuum metallizing.
- Operators can change color of each layer
- Available in AC type ( AC110-220V ) and DC type ( DC12 to 24V )
- Apart from the standard buzzer, 8 different melodies can be installed.
- For melody / Alarm type, different sounds can be applied to each of up to 4 layers. See on p.43 table
- Volume can be adjusted from the outside (Maximum volume 85dB)
- Mounting pole (length, type) are selectable (default SH20)
- Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- Operating Temperature : -25°C ~ +50°C (freezing free)

AUT- EN Series

- A Signal Tower controlled by connecting internet or LAN
- Control with computer web browser or applications
- Can be used for remote control
- Separate utility provided to set IP address, subnet mask, and gateway
- Maximum 4 layers of LED flashing type
- 4 basic sounds (1 buzzer, 3 siren sounds) are provided
- Selectable mounting pole (length, type) (default SH20)  
Magnet mount available when horizontal pole (SH) is ordered as a user additional option.
- Maximum volume : 85dB
- Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- Operating Temperature : -25°C ~ +50°C (freezing free)

AUT- DN Series

- ⊙ Signal Tower Light only for Device Net
- ⊙ Direct connection to network without separated I/O terminal for device net
- ⊙ Convenient to install and easy to maintain due to the smaller installation space and reduced wires.
- ⊙ Controlled by PLC device net master
- ⊙ Set the address (MAC ID) and communication speed with built in DIP switch
- ⊙ Supports all communication speeds (125kbps, 250kbps, 500kbps) in device net, and also supports automatic speed setting for convenient use.
- ⊙ Maximum volume : 90dB
- ⊙ Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- ⊙ Operating Temperature : -25°C ~ +50°C (freezing free)

### Features

- ⊙ Built-in buzzer, Steady type and DC24V by default
- ⊙ Color moving by layer is possible
- ⊙ Buzzer function provided in addition to up to 5 colors of LED unit per Signal Tower.
- ⊙ Mount using the exclusive bracket

### ? What is Device Net?

- ⊙ Device net is a field bus for easy access among control devices such as PLC, PC, sensor, and actuator. Saves wiring cost, reduces the potential for wiring errors, is easy to maintain, and can be used for real-time control. It is CAN-based and strong on noise. As it allows mutual access among devices from different vendors, it enables more economical system establishment. Can remove a connected device from the network without stopping the whole network. An open style field that is used for a wide range of purposes.

### Advantages of Device Net Signal tower

- Direct connection to network with built-in device net communication function (power line and signal line are integrated into single cable)
  - Saved space
  - Reduced wiring
  - Convenient installation & maintenance

**AUT- U Series**

**Technical Diagram**

- Signal Tower connected to USB port and controlled by programs on PC
- All signals and power are supplied together through a single USB cable (voltage DC5V)
- Can be used on a host that support USB 1.1 or higher
- Can be utilized for a range of purposes as a regular PC accessory
- Basic buzzer is embedded along with up to 5 layers and 5 colors of LED unit per a Signal Tower depending on the model
- Selectable mounting pole (length, type) (default SH20)
- Magnet mounted type is available with the optional horizontal pole (SH).
- Maximum volume : 90dB
- Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- Operating Temperature : -25°C ~ +50°C (freezing free)

## Connector Type Signal Tower Light

AUT- CO Series

- Connector Type Signal Tower Light
- 1 basic sounds (buzzer) are provided
- DC voltage models , available from DC12 to 24V
- Maximum 5 layers of LED Steady type
- Mounting accessories SV 06 pole Available exclusively.
- Outdia : Ø58 / Maximum volume : 90dB
- Cable : M12 4PIN Cable ( Male ) / Cable length : 350mm
- The number of Cable : 1L: 1EA / 2L: 2EA / 3L: 2EA / 4L: 3EA / 5L: 3EA
- Material : **Lens** [GPPS], **Body** [ABS], **Reflector** [PC], **Pole** [Aluminum]
- Operating Temperature : -25°C ~ +50°C (freezing free)

Mount using the SV06 pole only

	Type		Operation		Voltage
<b>Bulb</b>	80 : ø80		<b>B</b> : Steady		<b>110</b> : AC110V
<b>Steady/ Flashing</b>	100 : ø100		<b>BF</b> : Flashing		<b>220</b> : AC220V
					<b>12</b> : DC12V
					<b>24</b> : DC24V

### Bulb Small Steady / Flashing Warning Light

### Common Specifications

- A steady / flashing indicating lamp with a relatively simple inner structure that is easy to maintain
- Can be used to indicate device malfunction, material supply & stop signals, and signal transmission in automated line
- No buzzer functions
- Material: **Globe** [GPPS], **Body** [ABS]
- Operating Temperature: -25°C ~ +50°C

### AUW-80B / AUW-80BF

○ ø 80mm, small bulb Steady / Flashing Warning Light

### Nomenclature

AUW - R	① Type	-	② Buzzer	-	③ High Luminance	-	④ Voltage
Bulb	100 : Ø100		No mark : None		No indication : Standard		110 : AC110V
Revolving	125 : Ø125		AB : Buzzer		H : High luminance		220 : AC220V
Warning Light	125L : Ø125 long body		AM : Melody sound				12 : DC12V
	150S : Ø150 SUS body		AS : Siren				24 : DC24V
	180S : Ø180 SUS body						48 : DC48V

### Common Specifications

#### Bulb Revolving Warning Light

- ⊙ Excellent radiant effect using special vacuum metallizing reflector
- ⊙ Freely adjustable rotation speed with built-in volume switch
- ⊙ Buzzer siren and melody sounds (volume Max. 90dB) can be embedded simultaneously with revolving lamp
- ⊙ Embedded buzzer is 1 sound by default but up to 3 sounds can be ordered. 3 sounds are available by default for AUW-R125L model
- ⊙ Can be adjusted between AC110V ↔ 220V using changeover switch in the product
- ⊙ Microchip-based structure is simple and not affected by external noise
- ⊙ Operating Temperature : -25°C ~ +50°C
- ⊙ Material : **Globe** [GPPS], **Body** [ABS] / [SUS 304] ( For AUW-R150S, 180S models )

Embedded buzzer specifications			
Buzzer	Output	Timbre	
Buzzer AB	Max. Power 5W	Basic	Beep~~~Beep
		Additional option	Beep ~ Beep ~ Beep Dingdong Dingdong
Melody AM	Max. Power 5W	Basic	Fur Elise
		Additional option	Home Sweet Home London Bridge is Falling Down
Siren AS	Max. Power 5W	Basic	Urgent
		Additional option	Emergency Fire

### Features by Models

## AUP-B Series

## Panel Mounted Speaker

## Nomenclature

**AUP - B -** **①** - **②**  
 Panel Mounted Speaker    Basic sound    Voltage

**①**  
 AM: Melody  
 AB: Buzzer  
 AV: Voice

**②**  
 110 / 220 :  
 AC110V ~ 220  
 12 / 24 :  
 DC12V ~ 24V

## Technical Diagram

Unit: mm

## AUP-B

## Panel Mounted Speaker

- Although it is small in size, it makes a clear, high capacity sound.
- A panel style buzzer and alarm made with 4 channels. Users can choose the timbre based on the channel selection.
- Clear and fine sound in 8 harmonies
- Users can control 5 types of melodies and 7 types of buzzers according to the selected combination
- Volume control is provided on the reverse side of the product.
- Buzzer volume : Max. 90dB
- Material : ABS resin
- Operating Temperature : -25°C – +50°C

## Customization

- Users can control sound combinations through the DIP switches in the product ( See Page 63 )  
 If changing user settings is too difficult, the default setting is available when deciding order specifications.

MODEL	Embedded sound				Voltage	Current	Weight
	Warning sound	Channel	Basic Timbre	Volume			
AUP-B	Melody (AM) DIP switch No. 2, 3, 4 ON	A1	Turkish March	90dB	AC110V ~ AC220V	0.5(A)	272g
		A2	Piano Sonata				
		A3	Home Sweet Home				
		A4	Fur Elise				
	Buzzer (AB) DIP switch No. 1, 2 ON	A1	bee~bee~bee		AC12V ~ AC24V	1.2(A)	184g
		A2	Dingdong				
		A3	bee-ee				
		A4	bee bee bee bee				

- Timbre combination can be changed with the DIP switch in the product and external channel sockets.
- Volume can be adjusted by lightly turning the dial with a Phillips head screwdriver.

### Timbre Table

- It can be changed to use DIP switch and input pin channel adjustment, depending on the user's selection.

### Circuit Diagram

DIP Switch Adjustment	Input Pin			
	A1	A2	A3	A4
All OFF	Dingdongdang	Piano Sonata	Magic Flute	Home Sweet Home
No 1 ON	Dingdong	Telephone bell	bee bee peep	Dingdongdang
No. 2 ON	Magic Flute	Piano Sonata	Fur Elise	Telephone bell
No 3 ON	Piano Sonata	Turkish March	Home Sweet Home	Magic Flute
No 4 ON	Fur Elise	Turkish March	Home Sweet Home	bee bee bee bee
No 1, 2 ON	bee~bee~bee	Dingdong	bee-ee	bee bee bee bee
No 1, 3 ON	Magic Flute	Fur Elise	Turkish March	Home Sweet Home
No. 1, 4 ON	Magic Flute	Home Sweet Home	Telephone bell	Dingdongdang
No. 2, 3 ON	Magic Flute	Turkish March	Piano Sonata	bee bee bee bee
No. 2, 4 ON	Home Sweet Home	Magic Flute	Turkish March	Dingdong

			<b>CL125/150</b> : Caution LED (Ø125 /Ø150)

### Heavy duty industrial Warning / Caution LED

- ⊙ The body is aluminum housing structure with strong shock resistance and excellent corrosion resistance.
- ⊙ 2 types of housings depending on installation purpose
- ⊙ Suitable for outdoor, shipping, and heavy industry with completely waterproofed structure
- ⊙ Install the terminal block in the product or in the terminal box
- ⊙ Material : **Body** [ AL 7 types A AC7A ], **Ring** [CU], **Globe** [ PS , PC (125mm LED & Caution LED) ]
- ⊙ Standard body color : MUNSELL NO. 7.5G / 7.2
- ⊙ Operating Temperature : -25°C – +50°C

### AUM Series Common Specifications

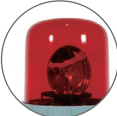

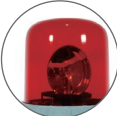

#### 1 Housing

- ⊙ 2 housing types depending on use A / B

AUM - A	AUM - B
<ul style="list-style-type: none"> <li>⊙ Basic housing type without attached terminal box</li> <li>⊙ Suitable for installation in narrow spaces or on ceilings</li> </ul>	<ul style="list-style-type: none"> <li>⊙ Housing is equipped with a terminal box and 2 cable glands.</li> <li>⊙ Convenient line connection with the terminal box</li> </ul>

#### 2 A Variety of Selectable Light Source & Function Combinations

Light Source & Function	Globe Outer Diameter
 <b>Bulb Revolving</b>	 125mm
 <b>Multiple Function LED</b> steady / flashing-revolving / flashing / revolving	 150mm
 <b>Caution LED</b>	 150mm

#### 3 Protective Net

- ⊙ Protective net is installed at the outside of the globe to prevent damage by shock (Protective net is optional)

#### 4 Fully enclosed structure

- ⊙ The tightly sealed warning light structure is waterproof and dustproof

#### 5 High luminance type

- ⊙ High luminance type is available for Multiple Function LED and Caution LED providing excellent radiant effect

#### 6 Cable entry

- ⊙ Basic cable gland is equipped for A type, while 2 cable glands are in the basic terminal box for B type

**Warning Light and Electronic horn combinations with excellent durability and perfectly enclosed structure, designed for heavy industry applications**

- ⊙ Heavy duty industrial 125mm Warning Light and Electronic Horn
- ⊙ 3 types of light sources can be chosen, based on installation purpose
- ⊙ Suitable for outdoor, shipping, and heavy industry with completely waterproofed structure
- ⊙ Classified into one-way (25W) / two-way (50W), depending on output
- ⊙ Material : **Body** [ Aluminum 7 types A AC7A ], **Globe** [ PS, PC ]
- Electronic Horn** [ ABS resin ]
- ⊙ Standard body color : MUNSELL NO. 7.5G / 7.2
- ⊙ Operating Temperature : -25°C ~ +50°C

### AUCS Series Common Specifications

#### 1 Light Source & Function

Bulb Revolving

Multiple Function LED  
steady / flashing-revolving /  
flashing / revolving

Caution LED

#### 3 Max. Output & Horn Direction

- ⊙ One-way Horn : 25W / Two-way Horn : 50W

#### 4 Fully enclosed structure

- ⊙ Highly durable aluminum housing is a perfectly enclosed structure with excellent waterproofing and dust-proofing.

#### 2 Horn Sound Selection

- ⊙ 3 kinds of timbres : siren sounds, melody sounds, and buzzer sounds are available for the use

Warning sound	Channel	Basic timbre (3 sounds)
Siren <b>AS</b>	CH1	Fire
	CH2	Emergency
	CH3	Urgent
Melody <b>AM</b>	CH1	The Magic Flute
	CH2	Home Sweet Home
	CH3	Fur Elise
Buzzer <b>AB</b>	CH1	bee bee bee bee
	CH2	Ding dong
	CH3	bee~bee~bee~

### Wall mounted Warning Light & Electronic Horn Combinations for Heavy Industry Applications

- Wall mounted model configured with heavy duty industrial integral Warning Light & Electronic Horn
- Timbre is changeable conveniently with the switch
- Suitable for outdoor, shipping, and heavy industry with completely waterproofed structure
- Convenient line connection with the terminal box
- Material : **Body** [Aluminum 7 types A AC7A] , **Globe** [PS, PC] , **Horn** [ABS resin]
- Standard body color : MUNSSELL NO. 7.5G / 7.2
- Operating Temperature : -25°C – +50°C

### AUMS Series Common Specifications

#### 1 A Variety of Selectable Light Source & Function Combinations

Light Source & Function	Globe Outer Diameter
 <b>Bulb Revolving</b>	 125mm
 <b>Multiple Function LED</b> steady / flashing-revolving / flashing / revolving	
 <b>Caution LED</b>	 150mm

#### 3 Protective Net

- Protective net option is available for Ø150mm globe models according to the user's needs

#### 5 High Luminance Type

- High luminance type is available for excellent radiance effect

#### 2 Electronic Horn Sound Selection

- 3 kinds of timbres: siren sounds, melody sounds, and buzzer sounds are available for the use
- A switch attached at the outside to change timbre

Warning sound	Channel	Basic timbre (3 sounds)
<b>Siren AS</b>	CH1	Fire
	CH2	Emergency
	CH3	Urgent
<b>Melody AM</b>	CH1	The Magic Flute
	CH2	Home Sweet Home

### Special Order LED Warning Light & Electronic Horn

- Effectively usable with LED Warning Light and Electronic Horn integrated configuration
- From among LED Ø100 - Ø150 models, two can be combined
- Applicable for indicating device malfunction, material supply and stop signals, and signal transmission in automation line.
- Consist of 8 channels usable according to the user's selection.
- Volume is adjustable with external volume controller.
- Body color : gray or ivory
- Please contact us to order optional products.

# Machine Light

## Nomenclature

SG - LED - ML - 146  
 ①                      ②

① **Product name**  
Machine Light

② **Product size(mm)**  
Length

SG-LED-ML-146

## Feature

Acquired CE certification  
 To prevent glare on the operator, the glass is frosted.  
 The irradiation angle can be adjusted to the desired angle using the bracket provided.

## Product Specifications

Operating temperature : -20°C ~ +85°C  
 Protection rating : IP65  
 Tolerance : ± 1mm  
 Power Code length : 3M  
 Material : (Body) Aluminum  
               (Lens) PC light diffusion(ML-146) /  
               Chemical heat strengthened glass(ML-280,ML-414,ML-548)  
               (Side) Aluminum Die casting

## Electrical Specifications

Input voltage : AC100V ~ 240V (50/60Hz) / DC24V

## Safety Specifications

## Description

The machine lights are made of aluminum profile and die cast, and the glass is a chemically strengthened glass that can withstand heat or shock. Effective heat dissipation is provided by the heat sink structure on the back of the product. Machine lights are used for various purposes, such as on work sites, product assembly/inspection lines, machine tools, and for wide area lighting. As it is waterproof with an IP65 protection rating, it can be used smoothly in places with splashing cutting oil or oily water, and has been launched in 4 types with different sizes.

Mounting with bracket

Model	Size(mm)	Mounting Size with bracket	Illuminance (at 1m)	Power consumption (AC / DC)	Weight(g)
SG-LED-ML-146	65 X 50 X 146mm	260mm	165lux / 650lm	7W / 12W	770g

②

① **Product name**  
Working Light

② **Product type**  
A220 : Basic  
C : Rechargeable

SG-WL- A220

Switch

Headlamp

Magnet

DC jack

## Feature

- LED lamp is mounted on the head
- Bellows are connected to the headlamp to allow for flexible movement
- Uses a neodymium magnet with strong magnetic force
- There are two types: the basic wire type and the rechargeable type

## Product Specifications

- Color : Blue
- LED color : White
- Illuminance (at 20cm) : 1400 lux
- Operating temperature : -10°C ~ +60°C
- Input voltage : AC100~240V / DC24V

## Description

The work light can be used in the field by fixing it to the required position using powerful neodymium magnets and bellows. It can help increase concentration on work on ships, milling, and tapping that require precision work, and can be used for general purposes as a reading lamp. It can be easily turned on and off using the power button attached to the head, and is available as a basic type and a rechargeable type, so you can use it according to the location.

# Signal Tower

## Nomenclature

SG - **70** **ST** **5** - **220A** **OF**

① ② ③ ④ ⑤

- ① **Product size(mm)**  
70 X 70mm
- ② **Product name**  
Signal Tower
- ③ **LED lamp color**  
5 Color ( R, Y, G, B, W )
- ④ **Input voltage**  
AC100~240V / DC24V
- ⑤ **Indicating operation**  
ON : Steady / OF : Flashing

## Product Specifications

Lens color : Transparent  
 LED color : Red, Yellow, Green, Blue, White  
 Rated voltage : AC100~240V / DC24V  
 Power consumption : 16W  
 Operating temperature : -20°C ~ +70°C  
 Indicating operation : Steady / Flashing  
 Signal sound : Buzzer < Volume Max. 90dB at 1m >  
 Material : Main body - Aluminum profile / Bracket - ABS incombustible  
 Lens - Polycarbonate / Pole - Aluminum

## Description

A signal tower is installed on a machine or at a work site to inform workers of the machine status or risks using colored lights and buzzers. Unlike existing tower lamps that send a signal with the lens color for the work environment, it enables users to recognize the signal intuitively and clearly using a system that can change the color of the LED itself.

# Oil Skimmer

## Precautions for Use

1. Because some parts may become damaged by impact to the product, take care to avoid external shock
2. Remodeling is not possible as it may cause damage or affect performance
3. Special attention is required because any moisture damage to this model may cause safety accidents
4. Please make sure that the power of the motor is appropriate first before supplying power
5. All parts shall be fixed and tightened perfectly before operating the product
6. Make sure to wash off any contaminants from the skin during installation, repairing, and inspection
7. Keep away from objects that may cause damage or deformation on the belt area
8. Be careful that gloves and clothes are not stuck in the pulley during product operation. Make sure to turn off power and wear gloves when inspection and repair is required
9. Electric connection and disconnection must be done by qualified personnel
10. If oil is pooled on the floor, make sure that it does not overflow from the waste oil tank. Always make sure that the environment surrounding the product is clean. Otherwise, a slippery floor may cause safety accidents
11. The oil and water separator in this product is required to filter waste oil out a designated product must be used
12. Do not neglect the product when it is at high temperature because some parts of this product can be damaged by heat

## Installation

Install the oil skimmer at the cover of the coolant tank. The oil skimmer can be easily installed through a simple cutting process

## Purpose of the product

Used for water coolant in machine tools (CNC machines, milling machines, processing machines, etc.)

Removes oil to prevent coolant contamination

- Prevent odor (remove contaminants)
  - Improve coolant replacement cycle and save cost
- For oil stains on processed products,
- Save labor and cost for cleaning processed products.
- Suitable for installation in narrow spaces

## Product Specifications

1. Body
  - ① Cover removal type
  - ② Color : Black  
(Other colors : Specific color designated by user)
2. Driving Unit
 

Ø3 200V 50/60HZ	Gear Ratio 1:100
Ø3 200V 50/60HZ	

  - ① Geared Motor : 25W
  - ② Head Pulley: MC Nylon (Brack)  
Fastened to the geared motor to drive the belt
  - ③ Tail Pulley: MC Nylon (Brack)  
Supports tension and return for the belt
3. Belt
  - ① PVC Belt (Blue)
  - ② Belt Width : 50mm
  - ③ Full Belt Length : 1040mm
4. Scraper
  - ① Steel (1.6 t)
  - ② Scrapper for the front of the belt
5. Total weight of oil skimmer body : 9.2kg

- ※ Products listed in this catalog are subject to change without prior notice to improve quality.
- For detailed product inquiries, please contact our head office.
- ※ Please check it when installing or using it.
